

DOKA COMPANY PROFILE

Reliable solutions. Strong structures.

Industrial Supply | Project Procurement | Controlled Documentation

Company Overview

Founded in 2006 and based in Istanbul, DOKA Foreign Trade supports industrial projects through engineered product supply, manufacturer coordination, technical documentation, export packing and international delivery.

Our role is to create one accountable supply workflow around drawings, standards, material grades, inspection requirements, documentation and project schedules.

- Bilingual project communication in Turkish and English
- Project-focused sourcing and manufacturing coordination
- Documentation and traceability follow-up
- International export and logistics coordination

Products & Capabilities

DOKA structures supply around the technical requirements of each enquiry.

- Anchor bolts and engineered fasteners
- Base plates and embedded steel parts
- Stud bolts, nuts and washers
- U-bolts and pipe supports
- Special fasteners and drawing-based fabrication
- Piping materials, valves and selected industrial equipment

Manufacturing Coordination

Qualified manufacturers are aligned with material, dimensional, heat-treatment, coating, inspection and documentation requirements. The applicable scope is defined by the project specification and approved documents.

Quality & Documentation

Documentation is managed as part of the supply scope rather than as an afterthought.

- EN 10204 3.1 / MTC records when required
- Chemical and mechanical property records
- Charpy impact testing when required by specification
- Heat-treatment and dimensional inspection records
- Coating / galvanizing reports
- Certificate of Origin and manufacturer documentation
- ITP / MAR support where applicable

Project Workflow

A controlled workflow keeps technical, commercial and logistics requirements visible from enquiry to delivery.

- 01 - Technical review
- 02 - Qualified sourcing
- 03 - Manufacturing and expediting
- 04 - Inspection and document control
- 05 - Export packing
- 06 - International delivery

Markets & Project Environment

DOKA supports demanding industrial project environments where technical compliance, documentation and delivery discipline are critical.

- Oil & Gas
- Petrochemical
- Power & Energy
- Industrial Construction
- Infrastructure
- Mining & Process Industries
